Your next chapter.

Built on stronger foundations.

FARM INFRASTRUCTURE + COMMERCIAL INSIGHT + FINANCE

Regional infrastructure project | Northern Territory

A bigger facility should mean a stronger farm business.

More capacity. Better workflow. Greater resilience. Room for the next generation. The opportunity is exciting. Making the investment work takes a clear connection between what you build, what it earns and how you fund it.

Advanced Finance Group is partnering with an established, family-owned regional infrastructure specialist with more than 40 years of experience, bringing commercial advice, finance broking and design-and-construction expertise into the same conversation.

Plan the operation. Test the numbers. Fund the future.

Start with the farm.
Connect the whole investment.

Covered cattle infrastructure | NSW

Cold storage and distribution | VIC

Whether you are planning covered livestock facilities, produce handling, cold storage, processing or machinery infrastructure, align the facility with the business it needs to serve.

FARM PLAN

Capacity, workflow and future stages

+

PROJECT DESIGN

Site, approvals and build costs

+

FUNDING PLAN

Equity, repayments and cash flow

ONE COORDINATED CONVERSATION BEFORE YOU COMMIT

AFG brings the financial discipline. Project feasibility, three-way cash flow forecasts and scenario analysis help you assess returns, seasonal pressures and repayment capacity. We can explore suitable property, construction, equipment and working capital finance, subject to lender assessment.

Our infrastructure partner brings the delivery expertise. Operational planning, purpose-designed facilities and an integrated process from concept and approvals through construction and handover.

FARMERS: LET'S TALK ABOUT YOUR NEXT PROJECT.
